EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS

Claim 2, line 1, the words "(previously amended)" has been amended to the words -- (previously presented) --.

Claim 3, line 1, the words "(previously amended)" has been amended to the words -- (previously presented) --.

Claim 4, line 1, the words "(previously amended)" has been amended to the words -- (previously presented) --.

Claim 5, line 1, the words "(previously amended)" has been amended to the words -- (previously presented) --.

Claim 8, line 1, the words "(previously amended)" has been amended to the words -- (previously presented) --.

Please note that "(previously amended)" is not an acceptable status indicator.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims **1-3** are allowable over the prior art of record because the prior art does not teach or suggest a method for synthesizing a calix[4]hydroquinone (CHQ) organic nanotube comprising the steps of dissolving and allowing as presently claimed.

Claim **4** is allowable over the prior art of record because the prior art does not teach or suggest a calix[4]hydroquinone (CHQ) organic nanotube synthesized by the method according to claim 1.

Claims **5-8** are allowable over the prior art of record because the prior art does not teach or suggest a method for synthesizing a nanowire, which comprises the steps of adding and allowing presently claimed.

The prior art does not contain any language that teaches or suggests the above. *JP 11-246551* uses a calixarene as a starting material. The nanotube formed from the calixarene is by covalent bonding of the hydroxyl groups of calixarene, whereas, the nanotube formed from CHQ is by a hydrogen bond. Therefore, a person skilled in the art would not have been motivated to adopt the above conditions, and a prima facie case of obviousness cannot be established.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
